

Wichita Region Porsche Club of America
Membership Meeting Minutes – April 24, 2019

The regular monthly business meeting of the club was delayed by one week due to unavailability of the dealership for our meeting place. Threats of severe weather had forced the dealership to move as many cars as possible inside their facility. Thanks to Walser and Porsche of Wichita for hosting and the catering crew for their hard work and excellent meal. Twenty five members and guests were present.

President's Report: President Barry Anderson reported a couple club events planned in the near future: wine tasting at Terradyne Country Club and a presentation by Clear Bra of Wichita about paint and detailing car care procedures. He also shared that our leadership committee will be developing a reimbursement procedure for travel expenses to match the national policies/procedures.
